PremiumCord

MST adapter DisplayPort 1.4 to 3x DisplayPort
8K@60Hz, extended + mirror + duplicate functions

Adapter for connection one DisplayPort V1.4 output with three LCD monitors. Single DisplayPort to Multiple Monitors. You can use it for extended desktop.

- This is 8K DP1.4 to 3*DP1.4 MST Splitter with Power, input devices are DispalyPort-equipped Macbooks, notebooks, laptops etc.
- Support MST function (extended, mirror/duplicate screens), HDR10, 3D, DSC(Display stream compression) and 7.1 sound channel
- The MST adapter allows you to extend an existing desktop to two or three monitors or mirror it to another monitor. It also allows you to work on two / three different screens simultaneously. Make your work day more fun and comfortable, working on multiple screens simultaneously..
- Use DP1.4 to 3*DP1.4+Power connect with ONE displayer, max resolution support 8K@60hz (7680 × 4320 @ 60Hz)
- Use DP1.4 to 3*DP1.4+Power connect with TWO displayers, max resolution support 2x 4K@60hz (3840 x 2160 @ 60Hz) (režim MST)
- Use DP1.4 to 3*DP1.4+Power connect with THREE displayers, max resolution support 3x 4K@60hz (3840 x 2160 @ 60Hz) (režim MST)
- Input connector: DisplayPort (Male)
- Output connectors: 3x DisplayPort (Female)
- Before using, required a micro USB (5V/2A) cable supply power for DP1.4 to 3*DP1.4+Power product.
- Support Standard: DisplayPort 1.4
- Plug-and-play installation.
- Casing: plastic
- Dimensions: Height 105mm, Width 43mm, Length 14mm
- Operating temperature:0°C to +70°C
- Certificates: CE, FCC,ROHS,REACH
- Support Windows 7, Windows 8, Windows 10, Android system.
- MacOS does not support Multi-Stream Transport (MST), so Extended mode is not available, but only Mirror and Duplicate. Apple devices themselves enable the MST feature, but must be run with an OS other than MacOS.
- Support MACBOOK Pro 11.1, DELL E7240 Laptop, Macbook Air 4.1, Mac mini 7.1, Surface pro Laptop, etc.
- Color: black
- Length of cable: 68mm
