

HP Scanjet N6350 Networked Document Flatbed Scanner

Enhance workteam or office productivity – share a range of advanced document capture tools over your wired Ethernet network. Automatically scan multi-page documents – single or double-sided – and share to networked folders or via email.

The HP Scanjet N6350 Networked Document Flatbed Scanner is a versatile device designed for offices and small workteams looking to improve productivity by sharing advanced document capture features and information archiving tools over the network.

Share robust, versatile performance across multiple users via integrated networking.

Connect this versatile document capture device to your Ethernet network and share scanning across multiple users. No IT expertise necessary – just connect and start working. Process information quickly and efficiently with easy sharing and sending of digital files direct from the scanner. Manage access and 'save to' locations through optional PIN security. Integrate with existing document management systems using included ISIS®, TWAIN and WIA drivers.

Scan multi-page documents quickly and reliably with the duplex automatic document feeder.

Boost office productivity with easy unattended document capture. Load up to 50-sheets into the automatic document feeder and leave to scan at speeds of up to 15 pages per minute, or 6 images per minute for double-sided documents. Handle a wide range of originals – business cards, stapled documents, photos and even 35mm slides/negatives – using the flatbed scanner. Manage, organise and share images with ScanSoft® PaperPort® or Presto! PageManager®¹.

Streamline your scanning processes with easy shortcuts and automatic image enhancement.

Improve office efficiency with an intuitive task-based user interface and one-touch 'scan' and 'copy'² buttons. Streamline processes by setting shortcuts to common tasks such as scan-to-PDF or scan document to Microsoft Word, then retrieve them at the touch of a button. Use HP scanning technology to automatically deskew, crop and rotate digitised files, and choose colour drop-out to improve OCR accuracy. Save scanned documents in the most appropriate format: PDF/A, PDF, TIFF or JPEG.

¹ ScanSoft® PaperPort® and Presto! PageManager® are compatible with Windows 2000, XP and Vista

² Print a copy of a scanned image to an existing default printer.
