

HP 10bII

Financial Calculator

The easy-to-use, affordable HP 10bII is the smart choice for business and finance needs at any level. With over 100 built-in functions you can quickly and easily perform a variety of specialized business, finance and statistic calculations.

Value and performance in one

Easily perform complex business and financial calculations with 100+ built-in functions, all at a price that makes good business sense at every level—professional or student.

- Save time with over 100 built-in functions for business, finance, mathematics and statistics
- Calculate business/financial functions including TVM, NPV, IRR, cash flows, amortization and more
- Calculate statistics functions including statistical analysis, standard deviation, mean and more
- Easily perform complex cost-sell-margin calculations

Easy-to-use and efficient

The HP 10bII is designed to be easy to use with algebraic entry-system logic, large 12-character LCD and accurate click-and-rotate keys. Plus, work more efficiently with memory for up to 15 storage registers.

- Solve problems as if working on paper using familiar algebraic entry-system logic
- Clear, easy-to-read 12-character LCD with adjustable contrast and on-screen labels
- Reduce keying errors and improve accuracy with unique HP click-and-rotate keys
- Protect your work with robust memory for up to 15 storage registers
- Time-saving, smart features including 2 shift functions, 3-key memory and automatic shut-off

HP quality and support

Have confidence that every time you turn on your HP calculator, every calculation you make, results in dependable, worry-free performance and accurate results.

- Rely on HP quality and award-winning support—online and by phone
- Get the most from your calculator, visit www.hp.com/calculators for online tutorials

Exam permissions

The HP 10bII is permitted for use on the CFP® Certification Exam.*

HP 10bII
